

TAKS Objective 7
TEK G.6C
Tutorial
(Grade 11)

...use orthographic and isometric views of three-dimensional geometric figures to represent three-dimensional geometric figures and solve problems.

In looking at pictures of 3D solids,
be able to accurately identify top,
front, and side views.

Reminder:

Changes in depth are shown
by a line segment.

Also, see TEK 8.7A.

What would be the front, top, and side view of this can?

Front
and
side
views
