Assessment FOR Learning MIDDLE/HIGH SCHOOL STUDENT SURVEY

PRE

INSTRUCTION TO STUDENTS:

Today you are going to complete a questionnaire to help me know more about some of your experiences in school. The answers will be anonymous—you won't put your name on the questionnaire. Your information will be combined with other students' responses to help determine the effectiveness of certain teaching strategies.

1. Read both statements first.
2. Decide which one you agree with most closely.

If you strongly agree with one statement or the other, fill in the "Strongly Agree" bubble closest to the statement you agree with.

If you somewhat agree, fill in the "Agree" bubble closest to the statement you agree with.

If you could go either way or if each statement applies to your situation equally, fill in the "Uncertain" bubble. Fill in the bubble completely. Please let me know now if you have any questions.

INSTRUCTION TO STUDENTS:

Today you are going to complete a questionnaire to help me know more about some of your experiences in school. The answers will be anonymous—you won't put your name on the questionnaire. Your information will be combined with other students' responses to help determine the effectiveness of certain teaching strategies.

- For each number, you will see a statement, then five bubbles, and then another statement.
1. Read both statements first.
 2. Decide which one you agree with most closely.

If you strongly agree with one statement or the other, fill in the "Strongly Agree" bubble closest to the statement you agree with.

If you somewhat agree, fill in the "Agree" bubble closest to the statement you agree with.

If you could go either way or if each statement applies to your situation equally, fill in the "Uncertain" bubble. Fill in the bubble completely. Please let me know how if you have any questions.

If I decide to get good grades, I really can do it.

I do not know if my work is good until the teacher evaluates it.

I do not understand the learning targets I am expected to learn in this class.

I do not track my improvement in learning.

I can describe what I have learned.

The teacher's system of grading is clear to me.

I do not know how to produce the level of quality that is expected to get a good grade.

I cannot compare samples of my work to show how much I have improved.

The grade I get depends mainly on the quality of the work I do.

My teacher does not provide examples of strong and weak work to help me understand what is expected.

I have regular opportunities to judge the quality of my own work.

When I try to learn something hard, I cannot learn it.

Tests do not help me see what I have learned and what I still need to work on.

I am not sure what learning targets I am responsible for learning.

I cannot use samples of my work to show what I have learned.

THANK YOU!

Assessment FOR Learning MIDDLE/HIGH SCHOOL STUDENT SURVEY

PRE

INSTRUCTION TO STUDENTS:

Today you are going to complete a questionnaire to help me know more about some of your experiences in school. The answers will be anonymous—you won't put your name on the questionnaire. Your information will be combined with other students' responses to help determine the effectiveness of certain teaching strategies.

- For each number, you will see a statement, then five bubbles, and then another statement.
- Read both statements first.
- Decide which one you agree with most closely.

If you strongly agree with one statement or the other, fill in the "Strongly Agree" bubble closest to the statement you agree with.

If you somewhat agree, fill in the "Agree" bubble closest to the statement you agree with.
If you could go either way or if each statement applies to your situation equally, fill in the "Uncertain" bubble.
Fill in the bubble completely. Please let me know how if you have any questions.
