 - c. Cleaning and Sanitizing needs
 - d. Career and Technology needs.
 - e. Remediation and Math Intervention needs
 - f. Technology needs
 - g. Retention Stipends
 - h. Cafeteria Improvements

1. Randy Yanowski spoke of a need for student services personnel to help the students that have fall behind due to the impact of COVID on families. He also spoke of HVAC issues that needed to be addressed so that students would be comfortable in their learning environment.
2. Misti Swick spoke on a need for math intervention for students that have struggled due to at home learning. She also spoke of a need for an additional career and technology teacher. Dally Rieger expressed her desire to take animal science along with Anna Drews. Due to being unable to social distance properly students are unable to take the classes they need and desire.
3. Troy Mitchell spoke on the issues inside his classroom with student attitudes with the lack of cleaning due to the heavy focus on sterilization.
4. Reagan Burnett expressed the lack of a GT program for the kids that needed more and often get overlooked because of the other kids that struggle.
5. John Burnett spoke on sanitizing needs and procedures in the cafeteria and stipends retentions for staff. Due to the work overload that COVID has caused.
